

SPANNING FROM WEST TO EAST

FAR REACHING

From Murmansk in the west to Khabarovsk in the east, SUEK operates effectively in all climates and conditions. In heat, wind, ice and snow. Across eight Russian regions and seven time zones. Through forest, tundra and permafrost.

DEEPLY INVOLVED

From urban centres to remote areas, SUEK's operations are interwoven with the Russian landscape, people and economy, helping to sustain social wellbeing and development.
